

November 16, 2020

Dear Enhanced Parents,

Last week our theme was This is America. They counted the stars on the flag, introduced USA is a country and it is made of land and water, talked about North, South, East and West. We introduced the globe to the children. They found North America on the globe. We introduced the word **peninsula** and showed them that Florida, the state they live in, is a peninsula. We also introduced the word **continent**.

This week we will have a Math review week. We will review numbers, sorting, counting, patterns, and math stories.

In **Math and Science**, the children will review numbers by playing bead match, number heart match and craft stick number match. They will review sorting by using bears to sort by color and size. We will use shapes to make an AB and ABC pattern.

In **Music and Movement**, the children will sing and dance to their Holiday songs in preparation for the upcoming Holiday Performance.

In **Language Arts**, the children will be listening to stories about Math such as, Chicka Chicka 123 by Bill Martin, The Alphabet Tree, by Leo Lionmi, Boom Chicka Rock, by John Archambault.

In our **Small Motor Center**, the children will strengthen their fine motor skills by grasping the materials to play all the math review games. This week will be a great hands-on learning review for all the kids.

Please continue to reinforce what we are doing in school at home. This will help with easier transition to learning at school.

Have a great week!! As always, should you have questions, please do not hesitate to ask. You can email the Stingray Team at vcastingrays@outlook.com or call us at 321-433-2330.

Sincerely,

The Stingray Teachers

Ms. Vicki and Ms. Rikeeta
